 Tell the Phantom which Google Maps searches you would like it to scrape.

Your searches 

https://docs.google.com/spreadsheets/d/[...]

Give your searches in one of the following formats:

- Keywords (e.g. restaurant Paris) - not recommended.
- The URL of a single Google Maps search.
- The URL of a Google Sheet containing a list of keywords or Google Maps search URLs.
- The URL of a CSV file containing a list of keywords or Google Maps search URLs.

Make sure that the CSV and Google Sheets are publicly accessible.

Etape 7 - Nombre de résultats exportés

- 1000 résultats exportés par utilisation
- 2500 si vous avez Sales Navigator

The screenshot shows the 'LinkedIn Search Export' interface with the 'DAF' profile selected. On the left, a sidebar lists steps: 'Searches to export' (checked), 'Connect to LinkedIn' (checked), 'Behavior' (selected), and 'Launch settings' (checked). Below this is a 'Setup demo video' section with a play button and a thumbnail showing a list of search results. At the bottom of the sidebar is a link for 'More information about this Phantom'. The main content area has a top bar with a 'Save & close' button. A blue informational banner states: 'We recommend processing a maximum of 1000 results per working day (or 2500 if you have a Sales Navigator account). Learn more'. Below this, there are two sections: 'Results to export per launch' (Optional) with a text input set to '1000' and a note 'Maximum 1000 per launch. LinkedIn only displays the first 1000 results per search.'; and 'Results to export per search URL' (Optional) with a text input set to '1000' and a note 'LinkedIn only displays the first 1000 results of a search. To get more, alter the search query and use multiple search URLs.' Below these are 'Advanced behavior settings' and 'Results file settings' sections, both with expandable arrows. At the bottom are 'Back' and 'Save' buttons.

The screenshot shows the 'LinkedIn Search Export' interface with the 'DAF' (Daily Action Frequency) settings. The left sidebar indicates the current step is 'Launch settings', which is highlighted with a red box. The main area displays a dialog titled 'Select the launch frequency' with the instruction: 'To keep your account safe, spread your actions across multiple launches throughout the day, during office hours.' There are four options: 'Repeatedly' (highlighted with a red box), 'Once', 'After another Phantom', and 'Advanced'. Below this, a 'Frequency' dropdown menu is open, showing options from 'Once per day' to '6 times per day'. The 'Once per day' option is selected and highlighted with a blue bar and a checkmark.

Vous pouvez utiliser des Phantoms “en cascade” automatiquement après d’autre Phantom : ex : LinkedIn Search Export + LinkedIn Profile Visitor

The screenshot shows the configuration interface for a Phantom named "LinkedIn Search Export" by "DAF". The left sidebar lists settings: "Searches to export", "Connect to LinkedIn", "Behavior", and "Launch settings" (which is highlighted with a red box). Below the sidebar, there are links for "Advanced settings", "Setup demo video", and "More information about this Phantom". The main content area is titled "Select the launch frequency" and includes a warning: "To keep your account safe, spread your actions across multiple launches throughout the day, during office hours." There are four frequency options: "Repeatedly", "Once" (highlighted in blue), "After another Phantom" (highlighted with a red box), and "Advanced". Under "Launch options", "Launch manually" is selected. A green box contains a warning: "1000 out of the recommended 1000 results will be exported per day. With a Sales Navigator account, you may export up to 2500 results per day. 1000 results per launch, manually." At the bottom, there are "Back" and "Save" buttons.
